Bills We Are Opposing

HB 1418 Providing enrichment funding for charter public schools. This would provide local effort assistance (LEA) of \$1550 per pupil to charter schools. Under the Local Effort Assistance program, the state provides additional funding to school districts at a disadvantage in raising enrichment levies due to low property values. Districts eligible for LEA, but levy below \$1.50 per \$1,000 rate, receive LEA in proportion to their actual levy collection. Unlike school districts, charter school boards do not have the authority to levy taxes. School districts that can't even pass a levy are not eligible for LEA. Therefore, charter schools are not eligible for LEA either. The bill was heard in the House Appropriations Committee on Feb. 16 and League testified. **Con. It is probably dead, but we'll work to see that it doesn't get into the budget.**
