Bills Needing Action This Week

Please read Bills We Support to see the latest status of other bills.

With the Fri., Feb. 17 date to get policy bills out of the chamber of origin passed, now attention will focus on bills with fiscal notes. To advance, those bills must be passed out of the chamber of origin by Fri., Feb. 24. Again, work will be done in executive committees, and on the floor of the House and Senate, with not as many public hearings. Bills in **RED** below are in the opposite chamber. Companion bills may be twins to each other, but not conjoined twins. One may be now forgotten in favor of the twin getting the most attention. That's reflected in the green notes at the end of the bill description.

Detailed instructions are in this week's Legislative Newsletter. Remember, only authorized members can speak for the League; the Issue Chairs will do that, so please leave the "Organization" box blank. A more powerful influence is many voices speaking for themselves rather than many voices speaking for the League.

Use the following as a guide for your email:

"Dear Appropriations Committee Member,

HB 1174 provides a comprehensive plan to improve access and remove barriers to voting for eligible jail inmates. It creates the necessary connections between county auditor's offices and each county jail allowing those eligible to register, receive ballots, and vote while incarcerated.

Democracy depends on participation of all citizens - even those awaiting trial in our county jails. Please VOTE to pass out of the Appropriations Committee, and send it to the House Floor for a vote."

Bills We Support

HB 1048 /SB 5047 Enhanced Washington Voting Rights Act

This bill amends sections of the Washington Voting Rights Act to clarify what constitutes a violation of the act. It seeks to protect members of classes who do not have an equal opportunity to elect candidates of their choice through methods that have created vote dilution or polarized voting. *(House State Gov't & Tribal Relations: public hearing 1/13/23. Executive session 1/20/23, Substitute bill passed out of committee); 1/24/23 Referred to Rules 2 Review)*

HB 1158 / SB 5082 Abolish Advisory Votes

Advisory votes are questions that appear on the ballot regarding state tax revenue increases for expenditures that have already been passed by the legislature. By having voters mark "repealed" or "maintained", the wording suggests that they are a binding referendum. However, the results have no impact, and therefore are inconsistent with League principles. Required to be first on the ballot, they confuse and discourage voters. In addition, they add significantly to the costs of elections. *(House State Gov't & Tribal Relations: 1/18 Exec session scheduled, no action taken.)*

HB 1174 Improving Access and Removing Barriers to Jail-Based Voting

Provides access to registration and voting to those incarcerated in county jails while awaiting trial. *(House State Gov't & Tribal Relations: public hearing 1/13, Exec. Session 1/31, SHB passed w/ do pass recommendation, 2/2 referred to Appropriations)*

HB 1229/ESSB 5112 Secure Automatic Voter Registration Using identifying documents as a prompt, Automatic Voter Registration registers voters and updates existing voter registrations at Dept. of Licensing. Transaction time is shorter, less costly, and registers more eligible voters. Accurate and updated registration reduces undeliverable election mail, provisional ballots, and same-day registration. Confirmation of the registration is mailed to the voter by the appropriate election agency, and the recipient then has the option to decline the registration. This automatic registration process is used successfully in Alaska, Colorado, Oregon, Delaware, and Massachusetts, and is deemed safe, secure, and efficient from beginning to end. *(In HOUSE State Gov. & Tribal Relations, Public hearing 2/7, Scheduled for executive session in the House Committee on State Government & Tribal Relations 2/15/23,, passed unanimously, do pass recommendation, 2/15.)*

HB 1241 Addressing Harassment

This bill modifies crimes of harassment and cyber harassment to cover conduct that is lewd or threatens bodily injury, property damage, confinement, or other malicious threats. Increases penalty for harassment of an election official to a class C felony. Allows election officials who are harassed to apply for the address confidentiality program. *(1/26 Exec action taken in House Committee on Community Safety, Justice, & Reentry at 8:00 AM. 1st substitute bill be substituted, do pass. 1/27 Referred to Rules 2 Review.)*

HB 1443/SB 5208 Updating the online voter registration process by allowing voter applicants to provide the last four digits of social security number for authentication. *(House State Gov't & Tribal Relations public hearing 1/27, Exec. Session 2/1 no action, Exec. Session 2/7, Do Pass, 2/9 referred to Rules 2nd Review, 2/14 placed on 2nd reading)*

HB 1541/SB 5616 Establishing the Nothing About Us Without Us Act (Lived Experience) provides the means for including underrepresented populations in policy making discussions where their lived experience can impact decisions made that would affect their group. A bill last year provided stipends enabling certain populations ability to participate; this bill gives them access. *(House SG & TR public hearing 2/3, 2/10 Exec. session out of committee w/ do pass recommendation, 2/14 ref. to appropriations)*

HB 1567 Commissioning a study on Conservation District election costs This bill is in response to concerns expressed last session from conservation districts about the cost burden of moving their elections to the general ballot. The League published the results of our study on their election methods and procedures in May 2011 in this [report](#). Our position is these elections should be held in regularly scheduled elections to increase public engagement and voter participation. *(House SG & TR public hearing 2/7, scheduled for exec session 2/10 passed out of committee w/ do pass recommendation, 2/14 ref. to Rules 2nd Review.)*

Bills with no more action this session

HB 1475 Increasing access to elections by allowing ballot submission via online portal for certain populations. (*HOUSE SG & TR public hearing 1/25*)

HB 1592/Ranked Choice Voting for Presidential Primaries.

This bill would eliminate “wasted” primary votes and produce choices with broad voter support for delegates representing their party’s candidates at their National Convention, where presidential candidates are selected. If one or two candidates are running, the current election method is used (Republican side of the ballot in 2020). If there are more than two candidates, Ranked Choice Voting is used to rank up to five candidates. (Democrat primary ballot in 2020). Post-election, counties send certified election data to the SoS for tabulation and publishing of

the statewide election results. SoS office is also charged with developing public educational materials for the public and training for county auditors. (*House: 1/25 in State Gov't & Tribal Relations*)
