**SB 5257 Ensuring elementary school students receive sufficient daily recess.** Recess supports the mental, physical, and emotional health of students and positively impacts their learning and behavior. The amount of time spent on recess varies throughout the state; therefore, youth do not have equitable access to opportunities for physical activity, self-directed play, and time outdoors. It was heard in the Senate Committee on Early Learning & K-12 Education on Jan. 18 and passed out of committee on Jan. 26.

**SB 5311 Concerning special education funding formula.** The state pays for special education on a per-student basis, which maxes out when more than 13.5% of a district's students receive special education services. ## **Bills We Are Opposing**

**[HB 1071](#) Securing schools by authorizing funding for a school resource officer (SRO) in every school.** This bill appears to be mandating that every school has a SRO and adds SROs to the definition of Basic Ed. Evidence shows it is more important for schools to have more nurses, counselors and social workers, which are part of Basic Ed and underfunded. The bill was heard in the House Education Committee on Jan.23.
