**March 12th, 2023**

Several important bills did not make it to the cutoff, and we will be eliminating them from our Grid and our weekly pages. We will now mostly be signing in either PRO or CON on most bills we follow as they are scheduled for public hearings. The legislature is also now discussing what effect each bill will have on the budget and what their priorities will be. As of this writing, here is where things are:

As always, the most effective influence we can have really is for many voices speaking for themselves rather than many voices speaking for the League. Remember to speak for yourself. The Issue Chairs will speak for the League. [Learn how to participate HERE](#)

**The Dental Therapy issue is one we have been following for a long time. It has made good progress in the House this session, however now it is headed for the Senate. Please contact Senator Cleveland and ask her to schedule a public hearing.**

**[HB 1678](#) Establishing and authorizing the profession of dental therapy.** This bill will define the profession of dental therapy and how it will fit within the dental team but allows it only to exist within federally qualified health centers only. This is a bill long supported by the League as it promises to improve access to dental care for underserved pockets of the broader community. **This bill needs a hearing.**

**Please email Senator Cleveland and ask her to schedule a hearing for HB 1678 [HERE](#)**
