

Weekly Legislative Update: **Solid Waste Management**

Issue Team Chair: Ann Murphy

Contact: amurphy@lwvwa.org

March 26, 2023

Six solid waste bills are continuing to move through the opposite chamber on their way to final passage. All solid waste bills have had hearings and still need attention. Even if you previously signed in PRO, there are still opportunities to have your voice heard (see actions below). One bill will have a hearing – please sign in PRO. At the same time these bills are still needing attention, the Senate and House are releasing and holding hearings on their respective budgets. So, please continue to act! Thank you!

Please express support for the bills – include your own voice and/or suggested talking points.

Remember, only authorized members can speak for the League; the Issue Chairs will do that. A more powerful influence is many voices speaking for themselves rather than many voices speaking for the League.

Bill in Executive Session

- **2SHB 1392 Right to Repair** - Promoting the fair servicing and repair of digital electronic equipment): This bill requires digital electronic product manufacturers, such as Apple and Microsoft, to make repair information, parts and tools available to independent repair businesses and owners so that People will keep using devices instead of tossing them or processing in take-back programs! The Senate Companion Bill did not make it out of committee. Please see [factsheet](#).
STATUS: 2SHB 1392 – In Senate Environment, Energy & Technology Committee; Bill needs Executive Session – (and the schedule for the Wednesday, March 29, @ 8 a.m. is TBA. If you have a [Senator on the Environment, Energy & Technology Committee](#) – please contact them and urge them to bring this bill up for Executive Session and then passage.

Bills Moving to Next Steps

- **ESHB 1033 Evaluating compostable product usage.** Establishes an advisory committee to standardize composting across Washington.
STATUS: Passed out of Senate Environment, Energy & Technology Committee to Rules; if you have a Senator on the [Senate Rules Committee](#) please contact them and urge passage.

- **[SHB 1047](#) Concerning the use of toxic chemicals in cosmetic products.** Eliminates the sale of cosmetics that contain one of nine toxins as identified in the bill. Allows for a phase-out to keep toxins out of homes and environment.
STATUS: Passed out of Senate Environment, Energy & Technology Committee and sent to Senate Ways & Means; if you have a Senator on the [Senate Ways & Means](#) please contact them and urge passage.

- **[SHB 1085](#) Reducing plastic pollution.** A three-pronged approach to reduce the use of plastics by 1) Requiring **refill stations** in drinking fountains in all new construction; 2) Phasing out **mini toiletries plastic packaging** (including shampoos, conditioners, lotions, and soaps) at hotels and other lodging establishments; 3) Banning **foam-filled dock floats** in our lakes and marine waters.
STATUS: Passed out of Senate Environment, Energy & Technology Committee and sent to Senate Ways & Means; if you have a Senator on the [Senate Ways & Means](#) please contact them and urge passage.

- **[2SSB 5144](#) Providing for responsible environmental management of batteries.** product stewardship bill for recycling all batteries. The batteries in our cell phones, electric toothbrushes and other rechargeable devices are lithium ion batteries. Ensuring the proper handling, recycling, and end-of-life management of used batteries prevents the release of toxic materials into the environment and removes materials from the waste stream that, if mishandled, may present safety concerns to workers, such as by igniting fires at solid waste handling facilities. See [factsheet](#).
STATUS: Passed out of House Environment & Energy Committee; Referred to Appropriations. If you have a Representative on the [House Appropriations Committee](#), please contact them and urge passage by April 4.

- **[SB 5287](#) Concerning a study on the recycling of wind turbine blades.** Requires the Washington State University extension energy program to conduct a study on the feasibility of recycling wind turbine blades used in Washington.
STATUS: Passed out of House Environment & Energy Committee; Referred to Rules 2 Review. If you have a Representative on the [House Rules Committee](#), please contact them and urge passage.

Bills League Supported; Did not Move Forward

- **[2SHB 1131](#) Improving Washington's solid waste management outcomes. WRAP Act.** Here is a [factsheet](#); you can also learn more with [this video](#) from the Seattle Channel.
Priority Bill
STATUS: Died – did not get a Floor vote.

- **[HB 1164](#) Responsible management of appliances containing harmful gases and other materials.** Creates a producer responsibility program for appliances. **STATUS:** Hearing in Environment and Energy Committee on 2/16/23 to primarily start the conversation on work on this bill for the 2024 session. **No action taken this session**
- **[SHB 1185](#) Reducing environmental impacts associated with lighting products.** Phases out the sale of most mercury-containing lights and extends/expands the product stewardship program for the same lights. Has an extended producer responsibility element in that the producers of lights in the stewardship program will be required to finance the operations of the program (eliminating the handling fee currently applied to retail sales)
STATUS: Died in Rules.
- **[HB 1422](#) Clarifying that certain reusable packing materials are exempt from sales and use tax.**
STATUS: Died in Rules.
- **[HB 1551](#) Reducing lead in cookware –** **STATUS:** Passed out of House Environment and Energy Committee On 2/13/23. Died in Appropriations
- **[SSB 5376](#) Allowing the sale of cannabis waste:** this bill would allow sale of cannabis if the waste would not be designated as dangerous or hazardous waste. Currently, this organic waste is often landfilled.
STATUS: Died in Rules.
- **[SB 5154](#) Improving Washington's solid waste management outcomes. WRAP Act.** Here is a [factsheet](#). **STATUS:** The Senate bill did not move out of committee. The House bill **1131** became the vehicle, and it too failed to pass.
- **[SB 5464](#) Right to Repair - Promoting the fair servicing and repair of digital electronic equipment):** This bill requires digital electronic product manufacturers, such as Apple and Microsoft, to make repair information, parts and tools available to independent repair businesses and owners. **STATUS:** Bill did not make it out of policy committee. **HB 1392** is the vehicle
- **[SB 5245](#) Concerning biosolids.** Ecology must establish pollutant limits for PFAS chemicals in biosolids, based on the results of the USEPA's risk assessment for PFAS chemicals in biosolids. Ecology must ensure that biosolids are tested for PFAS chemicals for which this pollutant limit has been established. And land application of biosolids that do not comply with the PFAS chemical pollutant limit would be prohibited. This bill is newly elevated to LWVWA Support.
STATUS: On Floor calendar. Died, did not get a Floor vote.

Bills We Are Watching

- [SSB 5579](#) Allows the Department of Ecology to elect to refrain from or cease administering or enforcing a requirement related to the use of hydrofluorocarbons and other ozone-depleting substance substitutes if it determines that supply chain problems or other similar disruptions threaten to impair businesses or consumers in Washington, and that suspending enforcement of a requirement would mitigate the problem.
STATUS: Bill died in Ways and Means

How You Can Be Involved

- Contact Ann Murphy, Solid Waste Management Issue Chair, amurphy@lwvwa.org or call (509) 385-8910.
