**March 5th, 2023**

Thank you for the many actions you have taken thus far. After the next cutoff date March 8<sup>th</sup>, bills that survived will progress to the other side of the house. We will now be signing in again either PRO or CON on most bills we are following. The legislature is beginning to focus on what effect each bill will have on the budget and what their priorities are, and we will weigh in as well.

As always, the most effective influence we can have really is for many voices speaking for themselves rather than many voices speaking for the League. Remember to speak for yourself. The Issue Chairs will speak for the League. [Learn how to participate HERE](#)

### For Universal Healthcare/Single Payor supporters who have been longing to Act:

#### **SJM 8006 Requesting that the Federal Government create a Universal Health Care Program.**

This bill sponsored by Senator Hasegawa, Cleveland, Billig, Kuderer, Lovelett, Nugyen, Shewmake, Stanford, Valdez, and Wilson, C. is a joint memorial to the Federal Government which requests the Government to create a single payor Universal Healthcare program and if it will not or cannot the Government should provide Washington State with the necessary waivers allowing the State to develop, define, and fund our own. It is a statement to Washington DC that we the people of Washington want Universal Healthcare funded by a single payor system separate from employment. Please:

**Send a thank you to these Senators listed as sponsoring this bill and ask them to bring it to the floor for a vote [HERE](#)**
